

Chanticleer Eatery

Warming Instructions

All instructions are based upon the use of a standard oven, set at 350. Please adjust these suggestions according to your equipment and judgement.

Squash Casserole — Heat covered for 45min - then uncovered for 15 until the top is just a bit crunchy.

Mashed Potatoes—Heat covered for 45 min, remove lid and stir, replace lid and warm more if not hot throughout. There are butter pads on the top to help keep your taters nice and creamy! (these also reheat nicely in the microwave if you need some space in your oven.

Place in a microwave safe container vent slightly and stir every couple of minutes until hot.)

Mac & Cheese—Heat covered for 45 minutes then remove lid and let top brown just a bit (5 minutes).

Sweet Potato Casserole w/ marshmallows—Heat uncovered for 45 minutes or until marshmallows are just browned and casserole is hot.

Sweet Potato Casserole w/ pecans—Heat covered for 45 minutes. Heat uncovered for 15 minutes to set the topping. The topping will continue to set once removed from the oven.

We recommend warming all these items to 165 degrees.

Happy Thanksgiving!!
